

**TWHGs Sun Hoi Directors' College**  
**2024-2025 School Notice No. 16**

20 January 2025

Dear Parents,

**Additional Measures for Temperature Monitoring upon the Arrival of the  
2024/25 Winter Influenza Season in Hong Kong**

In response to the upcoming flu season and the recommendations of the Centre for Health Protection, we will measure the temperature of all students daily upon their arrival at school to identify any students with a fever. To ensure the health of students and staff, we require students and parents to pay attention to the following arrangements, in addition to the existing temperature monitoring at the school gate:

1. Students must measure their temperature daily before entering school and complete the temperature declaration on pages 109-111 of the student handbook, which should be signed by a parent.
2. Class teachers will check the temperature declarations during the morning session to monitor and follow up on the declarations. Teachers will contact parents for more information if necessary.
3. If a student feels sick, parents are advised to seek medical consultation as soon as possible and ensure that the student wears a mask to reduce the risk of spreading germs.

\*The above arrangements will continue until local flu activity returns to the baseline level as notified by the Centre for Health Protection. Therefore, students must adhere to these arrangements, including on Sports Days (4th and 8th February 2025).

If you have any inquiries, please contact the class teacher or the Discipline & Guidance Unit.

Best regards,  
TWHGs Sun Hoi Directors' College
